

Questions about care?

We're here to provide **free advice** and guidance to anyone that needs help navigating the care system in England or Wales

At My Care My Home, we provide expert, impartial advice about:

The type of care service required

Finding the right care provider

The cost of care & funding options

Contact us to talk about:

- Bespoke care solutions including live-in care
- Shortlisting domiciliary care providers or care homes
- Paying for your care without selling your home
- Passing on your home & protecting your assets
- Help with renting, adapting or selling your home
- Advice about the funding that you're entitled to
- Financial advice from a later life specialist
- Referrals or signposting to organisations that can assist you further

“ I spoke to My Care My Home advising them that we needed some sort of care for my father who is on palliative care and my mum who was unsafe to be left alone with him and they pointed me in the right direction for help. I was so grateful for My Care My Home's understanding and help as this is unknown territory for me and their advice was priceless.

Our services

Information & advice

Call our freephone number for free information & advice about finding and funding care. We can discuss the care options available to you and how you can find the right care provider based on your needs.

Assessments

Our experienced and reliable assessors can carry out in depth assessments of care needs and/or mental capacity. Following an assessment, we can help to identify suitable care providers.

Property services

If you decide to sell your property to fund your care, we can oversee the sale and clearance of the home. Alternatively, you may find that the Care & Home Inheritance Plan, also known as CHIP, is the right solution for you. CHIP helps to fund care home fees without selling your home or depleting its value.

Plan ahead services

We can introduce you to specialist later-life financial advisors for a free initial consultation. These experts will provide tailored advice on the financial aspects of planning for later-life. We also work with retirement specialists who can help with wills, pre-paid funeral plans and lasting power of attorney.
